Play your part, be water smart!

Wise Water Use

Get an Energy Star labeled washing machine. Wash only full loads.

Use low flow showerhead.

Use a shut-off nozzle on your hose.

Put faucet aerators on sink faucets.

Install new toilets that use less than 1.6 gallons per flush.

Turn off the water while soaping hands and brushing teeth.

Turn off sink faucet while scrubbing dishes and pots.

Use plants that require less water.

Water your yard and outdoor plants early or late in the day to reduce evaporation.

Take shorter showers - five minutes or less is best.

Mulch around plants to hold water in the soil.

Use a broom, not a hose, to clean driveways and walkways.

Save it, or do without it!
