

My Meter translates complex consumption, weather and billing reading data into an intuitive graphical format that is available daily

Once logged in to MyMeter:

- View a graphical representation of hourly, daily, monthly usage
- Compare monthly usage to others in your neighborhood
- Has the ability to set alerts to not efficiency upgrades.
- Compare energy use fluctuations to changes in temperature
- Take an “energy challenge” and set an energy saving goal. The challenge lasts 6 months and tracks Member’s results in both a graphical and a tabular fashion

mymeter

MyMeter provides critical energy usage information to allow business and residential members to manage and reduce energy costs in their homes and business

My Meter is conveniently accessed through the homepage of the Brainerd Public Utilities Webpage. Members can log into MyMeter with their account number, name and email
